STAKING INCENTIVES

For Wow 100K Exchange to function well, it is critical to incentivize users to play the role of liquidity providers and stake their digital assets into the decentralized market-making pools. As compensation for opportunity costs, by providing liquidity, or participating in liquidity mining across the various Wow 100K staking options and platforms, users can earn a passive income by locking up funds and receiving Wow 100K tokens in return.

PRODUCT DEVELOPMENT AND GROWTH

Furthermore, the Wow 100K token will be used to create a "self-sustainable, closed-loop economy" through the collection of network fees, whether in Wow 100K or otherwise, would be re-distributed as incentives for active contributors within the ecosystem, or set aside for future product development and ecosystem growth.
